ALL BIDDERS PLEASE READ

Terms Governing This Sale

Bidders unknown to us will please furnish bank or other references or deposit 25 per cent with their bids and it is agreed that remittance will be made upon receipt of invoice if references are not furnished.

Any coin which is not satisfactory may be returned within five days from date of receipt for full refund. **You must be satisfied. PAYMENT TO BE MADE UPON RECEIPT OF MERCHANDISE.** Coins remain our property until paid for. There will be no charge for executing your bids but the purchasers will be required to pay the postage and insurance on their purchases. If you do not wish coins sent airmail please note this on your bid sheet.

We shall welcome your bids and will try to purchase the coins as much below your bids as possible. **PLEASE BID BY THE LOT.** Unlimited bids are executed at an advance of 5 per cent over the next highest bid. Numbers in () are the quantity of that item.

If you are interested in any particular coin, we shall be glad to have you write us for full information. **LOTS CANNOT BE BROKEN.** Be sure you bid on the correct lot as we cannot be responsible for errors in bidding.

NOTICE TO NEW BIDDERS

Our Mail Auction Sales Are Conducted in the Following

1. Bids are entered in the order received; if identical bids are received, the first bidder is awarded the lot. **SEND BIDS AIRMAIL—IT PAYS.**

2. The highest bidder on the date of the sale is awarded the coin at a slight advance over the second highest bidder. **Bids you send in are the maximum you are willing to pay for the coin. WE, AS YOUR AGENT, TRY TO BUY THE COIN AS LOW AS THE NEXT HIGHEST BID WILL ALLOW.**

3. Valuations placed in the auction catalog are catalog prices, prices generally asked by dealers when the coin is in stock, or prices generally realized at auctions.

ANY COIN WHICH IS NOT AS REPRESENTED MAY BE RETURNED WITHIN FIVE DAYS FROM DATE OF RECEIPT FOR FULL REFUND. YOU TO BE THE SOLE JUDGE AS TO CONDITION. YOU MUST BE SATISFIED. No, you won't receive a nasty letter for returning a coin—instead you will receive a letter thanking you for calling attention to the error made in cataloging. While we try to describe coins as accurately as possible, it is inevitable that an occasional error is made in the cataloging of thousands of coins each month. Whenever this happens, we want it called to our attention to help prevent future errors.

The coins will be on display the day of the sale at our offices and can be seen by appointment any day prior to the sale.

If you are not interested in these sales, won't you advise us so we may discontinue sending you catalogs.

Any coins may be inspected prior to the sale, collector to pay postage and insurance both ways.

**YOU WILL WANT A PRICE LIST OF THIS SALE
TO KNOW WHAT COINS ARE BRINGING
PRICE LIST OF SALE \$1.00**

IS THIS YOUR FIRST AUCTION CATALOG?

Proof coins, branch mints 1892-1934 unc., currency and commemoratives seem to be rising the most rapidly at present with most bringing close to listed values and a great number bringing even more. Many are rising from month to month with a number "just not obtainable." The coins most in demand will have the greatest number of bidders and with the law of supply and demand working, these coins keep setting new records.

Occasionally a collector writes us asking why our estimated values in some instances are higher than the catalog listing. This occurs when the demand is so great and the supply so small that new records are set whenever these coins come upon the market. If one will take a few moments to reflect, he will understand that it takes several months to compile the necessary information before the catalog can be published, therefore, it is inevitable that the catalog listing will be under the prevailing market price on the items in popular demand, at the time of the publication. **The estimated prices are entered only after careful examination of the results obtained in our past sales which reflect the actual and not theoretical value. (PLEASE NOTE THAT MANY OF THE ESTIMATES ARE CATALOG VALUE ONLY. MANY OF THE GOLD COINS, SILVER \$1, WASHINGTON QUARTERS, ETC. ARE ESTIMATED AT CATALOG.)** In the final analysis, you the collector, are the one who sets the price.

BIDS ARE RECORDED AS FOLLOWS: Each bid sheet is given a number as it comes in, and the bids are recorded. In the event of identical bids, the first bidder receives the lot. At the last day of the sale, the books are closed with the highest bidder on each lot being awarded the lot at an advance of not over 5% above the next highest bidder. For illustration—the two highest bids received on a lot may be \$17 and \$20. The highest bidder who bid \$20 would receive the lot at \$17.25. We act as your agent and use your bids as a limit—not as a final bid unless we are forced to do so to obtain the lot. We accept unlimited bids which generally assures the bidder of obtaining that lot regardless of what the highest bid may be. Where the lot is bringing for more than we believe it is worth or in the event of two unlimited bidders on the same lot, we notify the unlimited bidders by phone or wire, if necessary, in order to obtain a fixed limit to the bid. Even tho auction purchases are supposed to be final, we do not want you to keep any lots which you believe are improperly described. We endeavor to treat our customers as we would wish to be treated. Coin collecting is a personal hobby which makes life a little more pleasant. We try to keep it on a friendly basis and value the many friends we have made thru the years. If you have any complaints, we want to hear them as well as any compliments.

**YOUR SUCCESSFUL BIDS WILL INSURE YOUR RECEIVING THESE
SUCCESSIVE CATALOGS WITHOUT INTERRUPTION.**

BARGAINS GALORE

In every sale, some lots go at "bargain prices." May we suggest that in addition to bidding on those lots you "really want," you place nominal bids on those lots that "you might buy if they went at bargain prices." While you may not obtain many of these "bargain lots," yet in every sale you may pick up some real bargains.

Sincerely,

A. M. KAGIN and PAUL KAGIN.

YOU MUST BE SATISFIED

Our Sales Are Cataloged With You in Mind. If you have any suggestions, complaints, compliments (yes we receive some now and then), we want to hear them. Having cataloged over one hundred sixty successful coin auctions, we believe we are qualified to advise and help you with your numismatic problems. No, we don't "know-it-all" but we do know where to obtain the information we don't have.

We have a number of want lists on hand for the scarce and rare United States coins and currency. Our average commission for obtaining these specimens is only 10 per cent, therefore we believe we can pay the top price for your choice and scarce pieces, no matter how rare. Don't you think it is worth a 6¢ airmail stamp to find out what we would pay for your outstanding pieces? Naturally we buy collections, too.

SOMETHING NEW HAS BEEN ADDED

We wish to call your attention to the new service extended as per the bottom of the **bid sheet**. After receiving requests to apply the amount saved in the awarding of successful bids below the bids authorized we decided to avail this service to all of our clients. It is often exasperating to lose a lot by a few nickels when the amount saved on the successful bids would have been sufficient to increase the original bid to the point necessary to receive the lot. Check the bottom of your bid sheet.

EARLY SILVER DOLLARS

With the increasing demand, some of these historical coins are turning out to be real "sleepers." We believe present day prices will appear as bargains a year or two from now.

LIBERTY WALKING HALF DOLLARS

We note the catalog (guidebook) finally recognizes the difficulty of obtaining choice specimens by adding the following to the new edition, "Uncirculated, well struck specimens worth 25% to 50% above prices listed below." One of the most popular series and one of the most difficult to complete in choice condition. WE UNHESITATINGLY "STICK OUR NECK OUT" AND PREDICT THIS SERIES WILL SHOW A SHARP INCREASE IN VALUE DURING THE COMING YEAR. Every year we have collectors inform us, "I wish I had taken your advice last year . . . I sure missed the boat on — series." Will you be one of these, or will you be one of those to tell us, "I'm glad I followed your advice . . . things certainly turned out the way you predicted they would."

DOUBLE EAGLES (\$20 GOLD)

901. UNIQUE \$20 UNIFACE REVERSE IMPRESSION (May-June 1849) in copper from same master die as adopted but with convexity in die (concave field and medallic high relief as was true on first 1849 obverse. Rejected because to make design come up would require many blows of press (see Longacre's correspondence). Similar trouble was encountered in striking the MCMVII (1907) \$20's which required 5 to 10 blows with the heaviest press to make the design come up for same reason (concave field and high relief). THE ONLY SPECIMEN KNOWN. TRULY, "A CHANCE OF A LIFETIME." From Longacre, Snowden, Woodin collections. It is very difficult to estimate what this "museum piece" should bring but since we must, we believe it will bring between \$500.00 and \$1,000.00

902. 1850 TYPE I, 'TWENTY D.' reverse, very fine. 100.00

903. 1850-O (New Orleans) extremely fine. SCARCE. Greatly undervalued. 175.00
904. 1851 Brilliant uncirculated. RARE. SO CHOICE. Strictly uncirculated specimens of the early double eagles are really rare — try and find them. Greatly undervalued compared to the relative rarity of uncirculated versus circulated specimens. 150.00
905. 1852 Very fine. 65.00
906. 1853 Very fine and sharp. 75.00

970.	1907 TYPE IV, DATE MCMVII, St. Gauden's type with Liberty holding torch and flying eagle. Generally acknowledged our most beautiful gold coin. BRILLIANT UNCIRCULATED GEM WITH WIRE EDGE. Only 11,250 originally struck of which only a fraction are in existence today. Since it cost the government about \$40 each to manufacture these beautiful examples of medallic art (due to having to strike each coin 5 to 10 times in order to obtain the medallic high relief) the government had the die redesigned to the next type in low relief (more practical).....	225.00

987. 1913 PERFECT MATTE PROOF. ONLY 58 ORIGINALLY STRUCK OF WHICH ONLY A FRACTION CAN STILL BE IN EXISTENCE. MUCH MORE RARE THAN THE BRILLIANT PROOFS (just check back a few years and see what few specimens were offered). Of the original 58 struck, we would hazard a guess that around half were "spent." In the 1920's, dealers couldn't sell proof \$20's (even at \$21 or so) so many just spent them. Since matte proofs were not as popular as brilliant proofs, a higher percentage of them were spent. We noticed an ad by a dealer offering to pay \$225.00 for any matte proof. Since this date is three times as rare as the "commonest" (167 struck) matte proof, we believe this outstanding rarity should bring at least \$600.00. However, regardless of its rarity, it will be sold to the highest bidder.

DOUBLE EAGLES (\$20 GOLD) (Continued)

1004. 15 Different duplicates, dif. dates or mints, very fine to nearly uncirculated.

EAGLES (\$10 GOLD)

With present day prices so close to intrinsic value on the 'commoner' pieces, we cannot help but believe that they will rise in the not too distant future. A good series (\$20's too) to collect if you want a series "at close to basic value."

1877 PATTERN \$50 U. S. GOLD

We quote from Adams-Woodin, "IN THIS YEAR WAS STRUCK AT THE MINT TWO OF THE RAREST AND MOST INTERESTING PATTERN COINS OF THE WHOLE SERIES. THEY WERE OF A DENOMINATION HIGHER THAN ANY COIN OF REGULAR ISSUE, BEING OF FIFTY DOLLARS VALUE, AND ARE REGARDED BY ALL COLLECTORS AS **THE MOST DESIRABLE COINS EVER ISSUED AT THE UNITED STATES MINT.**"

'Each of these gold pieces is of distinctive design, being the work of William Barber, and both are exactly two inches in diameter and one-eighth of an inch in thickness.

They were the only fifty-dollar pieces issued by the mint, and are not to be confused with the fifty-dollar pieces issued in California, dated respectively 1851, 1852, and 1855. The ones dated 1851 and 1852, octagonal in shape, are of a semi-official character, having been issued by the Government assaying contracting firm of Moffat & Co., and Kellogg & Co.

Those issued at the mint at Philadelphia, dated 1877, never emerged from the experimental stage, but nevertheless are strictly of official origin.

And yet the two circular pieces of California and the two pattern coins issued at Philadelphia are closely associated, for they were all issued in response to a general demand on the part of the bankers and merchants of San Francisco.

Before the establishment of the United States branch mint at San Francisco in 1854 the Californians had to rely upon gold dust and the coins made by private persons for their circulating medium.

In a short time the gold coins of the smaller denominations disappeared, and the local currency consisted almost entirely of the huge octagonal fifty-dollar pieces. Change became so scarce that it was necessary to pay 2 to 3 per cent to have one of the "slugs" changed into coins of small denomination.

1877 PATTERN \$50 U. S. GOLD (Continued)

Relief to a certain extent was furnished in 1854, when the San Francisco branch began operations and more United States goldpieces came into circulation. Soon the octagonal fifty-dollar pieces met the fate of the smaller California coin, being exported or sent to the local mint and remelted and it was not long before the business men of California felt the need of a goldpiece of large denomination for quick counting purposes, as there were no paper notes in circulation of any denomination.

As a result the business men of San Francisco early in 1854 sent a petition to the Secretary of the Treasury requesting him to authorize the striking at the San Francisco mint of a fifty-dollar piece of the same shape and fineness as the regular United States double eagle. This memorial was forwarded to William M. Gwin, one of California's Senators, who in turn presented it to James Guthrie, then Secretary of the Treasury. This petition met the favorable attention of Mr. Guthrie who in a letter to Mr. Gwin stated that while he favored the issue of goldpieces of large denomination for use in the Pacific States, he did not think such pieces were needed in the East. Mr. Guthrie said:

... "But there are certain peculiarities in the condition of California which recommend a different scale of coinage for that region. These are: First, the fact stated in the memorial of the prohibition and entire exclusion of paper money; and, second, the high scale of prices prevalent in California for commodities and service. These circumstances will make larger denomination of coin convenient, particularly in counting and passing large sums. To this may be added that time will be saved in coining, which may be of much consequence to miners and others, at least until the capacity of the branch mint shall be ascertained to be equal to the gold offered.

"In order to harmonize the proposed large coins with the present recognized coins, I would recommend that the coinage be authorized of pieces of \$100, and \$50, and \$25, to be called the "Union", "Half Union", and Quarter Union", but that the "Half Union" only be struck for the present."

Badly needed as were the gold coins provided for by this bill, it never became a law. On May 29, 1854, Senator Gwin again brought the matter of the issue of the five and ten eagle pieces to the attention of the Senate, but discussion was postponed. On June 16 the bill passed the Senate by a large majority, but failed to meet the approval of the House.

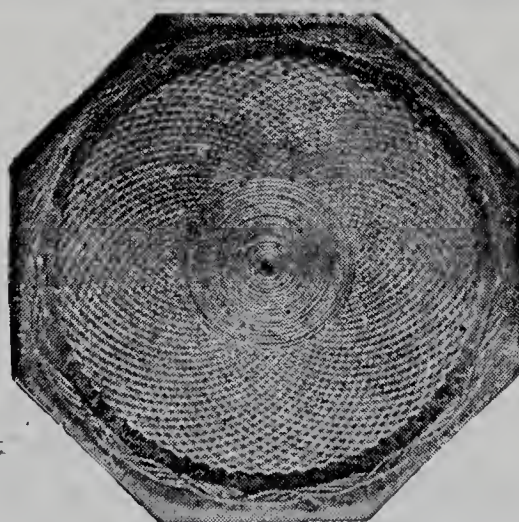

On May 22, 1877, Dr. Wheeler W. Hubbell of Pennsylvania patented a new composition of metal called "goloid." This was a compound of gold, silver, and copper in such proportions that the silver would bear to the gold a ratio of sixteen to one, so that the metals could not be separated, and thus make a legal tender in payment of all debts and duties. The object was to destroy the rivalry between silver and gold."

Since no further mention is made as to the background of these two fifty-dollar pieces, we assume that they were made up at the time as the 1877 "goloid" and other patterns including the eagle.

1170. AW-1499, 1877 FIFTY DOLLARS design of William Barber. Large Liberty head with no ornaments underneath the word LIBERTY on the diadem. This specimen is copper with gold plating (judging from its weight). The unique gold specimen (AW-1498 is in the Philadelphia Mint collection. BRILLIANT PROOF, very tiny line in field. We believe the gold specimen is worth \$50,000.00 This one should bring at least\$1,400.00

1171. AW-1501, 1877 FIFTY DOLLARS small head of Liberty. Five ornaments underneath the word LIBERTY on diodem. The unique gold specimen (AW-1500) is in the Philadelphia Mint collection. This specimen (judging from its weight) is copper with gold plating. BRILLIANT PROOF. We believe the gold specimen is worth \$50,000.00. This one should bring at least\$1,500.00

1861 DEMAND NOTES

The first U.S. paper money to circulate since the Revolutionary War (when inflation made paper money practically worthless). Since the reverse was printed in green, they soon acquired the name "Greenback." THE ONLY U.S. NOTES NOT TO BEAR THE TREASURY SEAL, NOR HAVE THE ACTUAL SIGNATURE OF THE REGISTER AND THE TREASURER. The serial number only appears once while on practically all other notes they appear twice (each end).

COIN OR TREASURY NOTES

"Redeemable In Coin" (but whether gold or silver was left to the discretion of the Secy. Trsy). Only two issues, 1890 and 1891. The 1890 had beautiful and intricate reverses which made it more difficult to detect counterfeits, as a result the reverses were changed to the more open type in 1891.

1918 FEDERAL RESERVE BANK NOTES

The increasing demand has uncovered a number of "sleepers" with the probability of more existing. We unhesitatingly recommend the completion of this series NOW as a good investment. Judging from the strong demand and small supply, a number should double in value within a year or two.
